

Ref: 41FOI21.22 – CAMHS Referrals

Please can you send me the most recent referral criteria the CCG has issued for CAMHS referrals. By referral criteria I mean any guidance that states what minimum threshold a child has to reach in their mental ill health in order for them to be referred to CAMHS. Please can you also send me any other communications the CCG has issued about CAMHS referrals or CAMHS services in the past two years (1 July 2019 - present day).

Response

There has not been any referral criteria issued for CAMHS referrals by the CCG, but please find attached the Thriving Kirklees public pathway which explains the offer of support if someone's emotional and mental health is, or is not, impacting on their daily function.
