

Ref: 49FOI21.22 – Services for Survivors of Sexual Abuse

Request

I would like to ask if Kirklees CCG funds and/or commissions any services for victim-survivors of sexual violence or abuse. This could encompass services for children, young people or adults, and could include different types of support services (e.g. SARC, advocacy, counselling services, etc.).

If the CCG does fund and/or commission these services, I would like to ask which services are financially supported/invested in?

Response

Please refer to the attached document for details of such services available in Kirklees and which providers the CCG has contracts with.
